ETI Automation

FACTORY EQUIPMENT'S & SOLUTIONS

Integrated Manufacturing Lines for a New
Era of Efficiency.

ENGINEERED FOR EFFICIENCY. BUILT TO LAST.

With over 25 years of proven experience, ETI Automation is a trusted leader in designing, manufacturing, and integrating premier factory solutions.

We are your strategic partner, dedicated to solving the unique challenges of modern industry. Our solutions are engineered for maximum efficiency, reliability, and performance, trusted by over 65 companies around the world to build, test, and assemble their products.

Key Pillars:

- ✔ **25+ Years of Expertise:** Proven industry leadership and technical knowledge.
- ✔ **Turnkey Solutions:** We deliver complete, end-to-end assembly and testing lines.
- ✔ **Custom Engineering:** Solutions are not just sold; they are designed specifically for your unique process.
- ✔ **Quality & Reliability:** Built to last, our systems ensure you minimize downtime and maximize output.

FACTORY EQUIPMENT'S & SOLUTIONS

Advanced robotic systems for safe, accurate, and efficient pallet stacking operations.

> AC EQUIPMENT MANUFACTURING SOLUTION

Build your AC manufacturing efficiency with our complete line solutions.

ETI Automation is a leading provider of AC Equipment Manufacturing Solutions. We provide a complete range of AC assembly and testing lines, from simple assembly lines to complex and fully automated lines. Our solutions are designed to meet the specific needs of our clients and are backed by years of experience and expertise.

Line Components:

- AC Assembling & Conveyor Line
- Multi-Type AC Assembly Line
- Indoor & Outdoor Unit Testing Line
- Evacuation & Charging Line
- Gas Leakage Testing Line
- Complete Performance Test Chamber for Air Conditioners

> REFRIGERATOR EQUIPMENT MANUFACTURING SOLUTION

Food-grade conductive solutions for the demanding needs of the refrigeration industry.

At ETI Automation, we are committed to providing cutting-edge solutions for the refrigerator industry. We offer a wide range of products and services, including complete assembly lines, testing equipment, and custom automation, all designed to ensure quality, reliability, and efficiency in your production.

Line Components:

- Door & Cabinet Foaming Line
- Refrigerator Assembly Line
- Refrigerator Test Line
- Refrigerator Conveyor
- Refrigerant Charging & Evacuation
- Dry Hopping Machine for Cabinet Foaming

> WASHING MACHINE EQUIPMENT MANUFACTURING SOLUTION

We provide defect-free, leading-edge automation solutions for washing machine production.

ETI Automation is your trusted partner for Washing Machine Equipment Manufacturing Solutions. Our solutions are designed to help you improve efficiency, reduce costs, and enhance the quality of your products. We provide a complete range of solutions, from simple assembly lines to complex and fully automated systems.

Line Components:

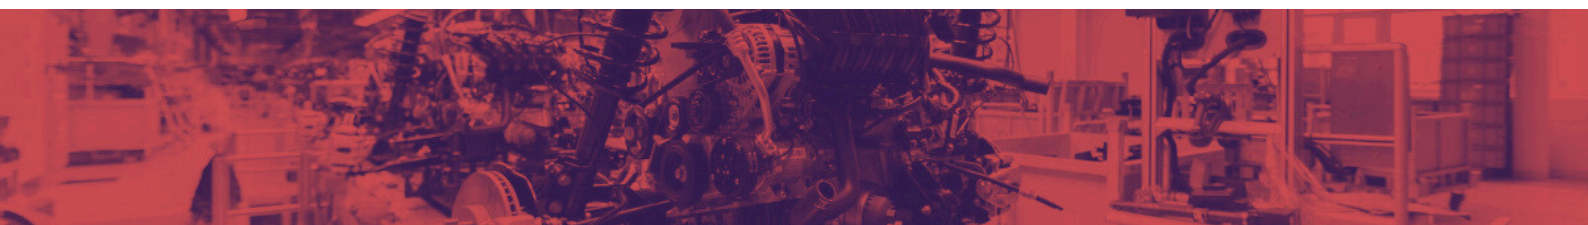

- Washing Machine Assembly Line
- Washing Machine Test Line
- MMU and Out Tub Riveting Line
- Washing Machine Conveyor
